

Cartrefi Conwy, Abergele

Welcome to our March newsletter and as you are aware, Wynne Construction has been appointed as the Main Contractor to build the new Cartrefi Conwy Headquarters in Abergele. The £2.45m two-storey office building will be a state-of-the-art modern open plan facility providing a high quality working environment for the housing association.

Works on site are progressing very well. The roof cladding and photovoltaic panel installations are now complete. Works to the external walls are nearing completion, panelling and insulation are nearing completion, finished wall cladding panels have commenced and we are seeing windows and external doors being completed. Internally the walls are now being erected and the Mechanical and Electrical installation works have commenced. The next month will see the completion of the external wall cladding and window installations and continued progress internally. Externally works will commence on the car park areas.

We would like to take this opportunity to apologise for any inconvenience that may have been caused during these stages of construction and ask that you do not hesitate to contact us with any queries, concerns, issues or comments during the final stages of our works. As a 'Considerate Constructor' we endeavour to ensure that our works have a limited impact upon your daily operations and routines. This project has been registered with the Considerate Constructors Scheme and we are committed to meeting, and exceeding, this code's standards. Attached is a questionnaire and we welcome any feedback in relation to this project and our performance and assure you that any concerns will be addressed by our committed project team.

The Wynne Construction Team

1 Do you live or work in near proximity to the project?

Yes	No
-----	----

If yes please give your home address/place of work:

This information will be kept confidential. Would you like you a copy of the completed questionnaire? Yes No

2 Were you made aware of the project, Wynne Construction's appointment and the planned start date by the local Council prior to our commencement on site?

Yes	No
-----	----

3 Are the construction works affecting you and/or your business?

Yes	No
-----	----

If yes please brief state how:

4 What more, if anything, can be done by Wynne Construction to reduce the impacts of the construction process on local residents?

5 What are your impressions of Wynne Construction?

A considerate constructor operating a safe, tidy and controlled site

A contractor, not causing too much disturbance, but their works are their priority

A major contractor proceeding without consideration for its neighbours

6 Any other comments/obeservations?
