

RNLi Lifeboat Station - Llandudno

Welcome to our July newsletter. Wynne Construction has been appointed as the main contractor to build the new RNLi Lifeboat Station, a modern boathouse, at Craig y Don in Llandudno. The new station is designed to house a new 25-knot Shannon-class all-weather lifeboat and a D-class inshore lifeboat together with their launching equipment and will also give the RNLi's volunteer crews the facilities they deserve to provide an efficient lifesaving service for many years to come.

As we move into July the re-curve wall and capping beams have now been completed forming the perimeter of the new RNLi building. Throughout the month you will see the building's drainage being installed along with all the associated services. The building footprint itself will begin to take shape with work well underway for the foundations of the raft slab. Once the building slab has been poured the structural steel will commence and the frame of the building will slowly take its shape.

You will also notice that much of the external works has begun with the rock armour due to start mid-July and the formation of the concrete ramp.

We would like to take this opportunity to apologise for any inconvenience that may have been caused during these stages of construction and ask that you do not hesitate to contact us with any queries, concerns, issues or comments during the construction stages of our works. Attached is a questionnaire and we welcome any feedback in relation to this project and our performance and assure you that any concerns will be addressed by our committed project team.

The Wynne Construction Team

Newsletter – July 2016

1 Do you live or work in near proximity to the project?

Yes	No
-----	----

If yes please give your home address/place of work:

This information will be kept confidential. Would you like you a copy of the completed questionnaire? Yes No

2 Were you made aware of the project, Wynne Construction's appointment and the planned start date by the local Council prior to our commencement on site?

Yes	No
-----	----

3 Are the construction works affecting you and/or your business?

Yes	No
-----	----

If yes please brief state how:

4 What more, if anything, can be done by Wynne Construction to reduce the impacts of the construction process on local residents?

5 What are your impressions of Wynne Construction?

- A considerate constructor operating a safe, tidy and controlled site
- A contractor, not causing too much disturbance, but their works are their priority
- A major contractor proceeding without consideration for its neighbours

6 Any other comments/observations?
